Sub: Demand Creation for Electric Vehicles in the Government Departments/ Boards/ Corporations in the State of Haryana- Haryana Electric Vehicle Policy 2022-Reg.

With reference to the subject cited above, the undersigned is directed to bring to your kind notice that the Department of Industries & Commerce Department, Government of Haryana, has notified the 'Haryana Electric Vehicle Policy 2022' on 8th July, 2022 (Copy enclosed for reference), wherein the provision for 'Demand Creation' has been provided vide Para 11 of the policy as under.

Demand Creation

The Government Departments/Corporations shall provide leadership in the use of Electric Vehicles to create the initial demand and to build confidence amongst buyers for buying and using Electric Vehicles. NRE Department/HAREDA will be the coordinating agency for facilitating the deployment of e-vehicles by adopting viable business models (lease based/ outright purchase/ any other feasible model) by different Government Departments/Organizations. The following steps shall be taken by concerned departments:

- i. The year of notification of this policy, shall be announced as the —Year of the Electric Vehicle|| in Haryana.
- ii. Due consideration will be given to Electric Vehicles while hire / purchase of new vehicles by the Government Departments of corresponding class/category as available in the market.
- iii. Multiple Government offices and public areas will be chosen for installing public charging equipment that can be used publicly.

11/06/23 C.T.

iv. The cities of Gurugram & Faridabad will be declared as model Electric Mobility (EM) cities with phase-wise goals to adopt Electric Vehicles (EVs), charging infrastructure to achieve 100% e-mobility.

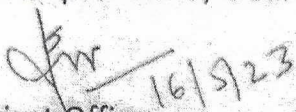

v. Model Electric Mobility cities shall convert 100% of all commercial passenger carrying vehicles to electric vehicles. These vehicles can belong to any government organization, State Transport Undertakings, educational institutes, hospitals or corporations and other institutions. Panchkula, Karnal, Gurugram & Faridabad will be the pilot cities for all new initiatives. Efforts will be taken to phase out all fossil fuel based commercial passenger carrying vehicles in Gurugram and Faridabad by 2030.

vi. Efforts shall be made to convert 100% of bus fleet owned by Haryana State Transport Undertakings into electric buses or Fuel Cell Vehicles or other non-fossil-fuel-based technologies by 2030. In this regard, department shall convert 10% of existing bus fleet within next 2 years of launch of EV policy in First Phase. Department shall convert 50% of bus fleet in Second Phase by 2026 and eventually, 100% conversion of bus fleet shall be achieved in Third Phase by 2030.

vii. Efforts shall be made to convert all forms of Government vehicles, including vehicles under Government Corporations, Boards and Government Ambulances etc., to electric vehicles in two phases i.e., 50% by 2026 and in rest of the State by 2030'

2. In this regard, in the meeting held on 17.04.2023 under the Chairmanship of the Additional Chief Secretary, Environment, Forest & Wildlife, Government of Haryana, to accelerate the 'Action on targeted action plan related to Electric Mobility listed in the CAQM policy for NCR & activities in the Haryana Electric Vehicle Policy 2022', wherein it was informed that HAREDA has hired five electric cars on 8 years lease agreement with Energy Efficiency Services Limited, New Delhi (A joint venture of Public Sector Undertakings under the Ministry of Power, Government of India), it was decided that HAREDA will circulate the copy of the 'Electric Vehicle Lease Agreement' with EESL to all the Departments, Boards and Corporations with the request to get the option of hiring of Electric Vehicles explored, for their office purposes.

3. Accordingly, a copy of the 'Agreement for Lease of Electric Vehicles' signed between EESL and HAREDA on 25th November, 2020 is enclosed along with the request to make explore the possibility of shifting to electric vehicles as per the prevailing instructions/guidelines of the State Government, in your Department / Board / Corporation.

Project Officer,

for Director General, Department of New & Renewable
Energy, Govt. Of Haryana, Panchkula.
